

THE HIGHBROW

SKIN & LASER CLINIC

PERMANENT COSMETICS

PERMANENT MAKEUP TO ENHANCE & DEFINE YOUR NATURAL BEAUTY

The Highbrow Clinic was established by Louisa Franzen in 2017.

Louisa has worked within the beauty industry for the last 23 years, owning two beauty salons, two aesthetic clinics and two training academies. She has also travelled across Europe teaching and is dedicated to offering only the best in permanent makeup procedures. She is passionate about training others to be the best artists within the industry.

Louisa Franzen is a highly qualified Cosmetic Micro-Pigmentation specialist and trainer. She has travelled far and wide to gain the very best training within her field and is now the proud owner of The Highbrow Skin and Laser Clinic.

The Highbrow Skin and Laser Clinic is an environment where clients feel at ease and know they are receiving the very best treatments available. From the moment you walk through the door right through to your follow up appointment, we want your experience with us to be amazing.

The clinic has become a centre of excellence for semi-permanent cosmetics and enhancements and is at the forefront of the latest techniques, products and equipment within the industry.

SKIN & LASER

The Highbrow Skin and Laser Clinic was created in 2020 as a centre of excellence to provide specialist skin and laser treatments. It is now established as the premier clinic in the area offering treatments for acne, rosacea, pigmentation, hair removal, anti-ageing and much more. Our state of the art laser allows us to achieve results that previously might only have been available in the best clinics in London. From the moment you walk through the door right through to your follow up appointment, we want your experience with us to be amazing.

LASER TREATMENT

When it comes to offering fast and effective laser hair removal, skin rejuvenation, pigmentation and vein reduction, we have the world's leading laser system.

The GentleMAX Pro is the industry's leading, multi-wavelength system.

This device also has the advantage of having the industry's largest spot size of 24mm, allowing us to treat larger areas in a shorter amount of time which provides more comfort and less cost for our clients.

The built-in, cryogen based, dynamic cooling system ensures a much more comfortable experience for our clients, whilst also reducing the risks and possible side effects, therefore downtime will be minimal.

LASER SEMI-PERMANENT MAKE UP REMOVAL

The Highbrow Skin and Laser Clinic has become a centre for excellence in all aspects of semi-permanent make up (SPMU). Increasingly we are seeing clients who have had poorly placed, over saturated or sub standard SPMU work carried out elsewhere and we are delighted to be able to remove and correct this for them.

We offer removal on all areas including the delicate eye area using our state of the art laser. Our level 4 laser specialists will advise and assess the areas that you wish to have removed and carry out a patch test as part of your PMU removal consultation. The number of treatments required and outcome will vary for each individual and this will be explained as part of your consultation,

MORPHEUS8

'Non-Surgical Facelift'

We are very excited to offer this treatment, which is widely considered to be the very best in radio frequency micro-needling or, as it is more commonly known, the 'Non-Surgical Facelift'.

Morpheus8 is a fractional skin treatment that stimulates collagen production of the underlying layers of the dermis. By targeting the deeper layers of skin, the tissues of the face and body can be remodelled to reveal a more radiant, youthful appearance. It has excellent outcomes for skin rejuvenation, acne scarring and stretch marks. The Morpheus8 almost acts like a defibrillator for your collagen and elastin production, which causes the lifting and tightening of the skin.

The benefit of using radio-frequency energy is that it is a scientifically proven method to remodel and rebuild collagen. It is also minimally invasive. Visible results can be seen within a few days, but typically after 3 weeks, the most noticeable results appear. Improvements will also continue up to 12 months after a course of treatment.

By using a 'micro-needling' delivery method, the skin is penetrated with 24 coated pins delivering radio-frequency deep into the dermis and sub-dermal tissue. The micro lesions trigger the body's natural healing response to produce new collagen, molding the fat beneath the skin to tighten and contract the fat and connective tissue.

We recommend a course of 3 treatments spaced between 4-6 weeks apart, but this will, of course, depend on your cosmetic concerns.

MORPHEUS8 PRICES

DERMAPLANING

DERMAPLANING

Dermaplaning is a safe procedure for exfoliating the epidermis and ridding the skin of fine vellus hair (peach fuzz) so it will not grow back thicker or darker. Gentler than dermabrasion and with no adverse effects, the technician uses a medical-grade tool to gently abrade the surface of the skin using light strokes.

Dermaplaning can be offered to clients who are pregnant as no peeling agents are used and removing epidermal skin allows products to penetrate more readily into the deeper skin layers.

Also suitable for clients with rough, dry skin or superficial hyper-pigmentation and acne scarring; this leaves the skin smooth and glowing.

LED PHOTOTHERAPY

DERMALUX FLEX MD

We are delighted to offer the Dermalux Flex MD. It is a clinically proven, professional-level LED therapy used to improve your skin's overall health.

The Dermalux Flex MD works by channelling safe and effective LED wavelengths into the skin's different layers to rejuvenate cells, treat signs of ageing and acne and improve overall skin health, as well as relieve muscular and joint pain.

Suitable for face and body.
